The authors and editors would like to extend thanks to Thomas Johnson and Mary N Farber for their editorial support.

**Congratulations!** This ebook will help improve your fund of knowledge. Our books are designed to help you identify and resolve knowledge deficits. To achieve this goal the text is written in a multiple-choice format with answers and explanations. Explanations contain additional information intended to reinforce your knowledge. Emphasis has been placed on covering facts that are easily overlooked, quickly forgotten, and often show up in specialty reviews. For further information, all explanations are electronically linked to eMedicine (free), Google Scholar (free), or UpToDate (subscription). We have no affiliation with these medical websites.

We suggest you note all questions answered incorrectly to allow you to rapidly review the content prior to your exam.

We appreciate your comments, suggestions and criticisms. Some answers and explanations may be in variance with your own knowledge. This is usually attributable to variability among sources; however, please make us aware of any potential errors you find as we update our books often. We appreciate your input in regard to format
