Summary : Free the other house on elm street pdf download - it was a brilliant plan a group of guys pooling their money to rent a small house the landlord was a genius to put greg forrest in charge offering him a place to stay in exchange for fixing up the place what could possibly go wrong the man is an army veteran who surely wouldn't tolerate foolishness but the landlord didn't know greg as well as he thought keeping a secret side of the house for his own purposes greg introduces each of the guys one by one and unknown to the others to a world of pure pleasure and he has no intention of letting any of them know about his liaisons with the others amid the parties and mayhem fun is had and couples are formed but a surprise visitor from greg's past may mean a change in the house rules it was a great plan a fabulous plan an utterly incredible plan a plan no one had ever thought of before a surefire plan a plan that couldn't fail the guys were going to pool their money and rent a small house on a rundown property on the outskirts of their tiny montana hamlet called rainbow like all great plans though nothing went quite as expected the plan was for greg in return for a more independent roof over his head for the next twelve months to work on improving the property for the building's owner it was a small house with three rooms and a bath upstairs a kitchen a den or dining room living room and tiny laundry room on the ground floor a small cellar underneath the kitchen housed the furnace and hot water heater resting on the solid rock only five feet below ground level the porch railings and floor required painting the wooden steps needed to be nailed down or replaced the fence around the yard needed to be straightened and anchored into place and window frames demanded repair inside the three bedrooms needed ceiling tiles replaced from an earlier roof leak and a light fixture here and there needed some basic rewiring outside the yard needed hours of work to make it presentable as overgrown grass was going to seed and weeds and crab grass were firmly rooted throughout working with greg the guys completely altered the appearance of the house and it looked quite presentable they raided their family attics for unneeded furniture and a trip or two to goodwill in greg's truck for some used furniture finished off what they needed a place to study a place to party a place to get lucky or so they hoped and greg would be there to keep an eye on the place they agreed on a set of rules for use of the house regarding parties guests and study time however the

choice of greg was also a bad move on the guys part because he introduced each of them one by one and unknown to the others to the pure pleasures of worshiping the god priapus he seduced each of them and taught them to return the pleasure and he was a good instructor each unknown to the others managed to meet and mate with greg regularly for private sessions one of the guys reminded greg of his days back in afghanistan with corporal robin deets there was the body he loved those tight abs the beefy arms and thighs the brown eyes the nearly perfect teeth but cpl deets had one more year to go when greg s overseas hitch was over greg hoped that someday he and his army pal would get back together he just wasn t sure if it was a friendship or a temporary relationship based upon proximity and male necessity but the man did make hot dusty days and cold nights endurable a soldier wasn t going to get lucky with a lady who keeps her face covered with a veil and it was a death sentence for any local male who wanted to have a little fun so they did what they could
