Summary : Free marriage and life after death pdf download - in africa the emphasis on family marriage and offspring suggest that there is a kind of an unwritten ancestral law that imposes on every male the duty of begetting a son the reason is because the core of african soteriology is centered on offspring the predicament of the childless couples therefore stems from the desire for immortality and salvation that culminates in the admission of the dead into the ancestral world this quest for salvation and immortality constitute social emotional psychological and spiritual problems for christian as well as non-christian childless couples
