Summary : Free women s writing in italy 1400 1650 pdf download - this is the first comprehensive study of the remarkably rich tradition of women s writing that flourished in italy between the fifteenth and early seventeenth centuries virginia cox documents this tradition and both explains its character and scope and offers a new hypothesis on the reasons for its emergence and decline cox combines fresh scholarship with a revisionist argument that overturns existing historical paradigms for the chronology of early modern italian women s writing and questions the historiographical commonplace that the tradition was brought to an end by the counter reformation using a comparative analysis of women s activities as artists musicians composers and actresses cox locates women s writing in its broader contexts and considers how gender reflects and reinvents conventional narratives of literary change

Pusblisher : JHU Press on 2008-05-02 / **ISBN :** 9780801888199
