Summary : Free the senses of the text pdf download - in recent years the notion of determinate meaning the idea that a word or a line in a literary text means one thing rather than another thing x rather than y has been widely rejected in the name of derrida and diff rance reader-response criticism and ideological approaches proclaiming meaning to be no more than a site of political contestation yet determinate meaning says william c dowling cannot be rejected in this way like the ratio named by p or the primeness of prime numbers in mathematics it has been there all along waiting for our theories to catch up the proof that this is so he argues is today most compellingly available in the new intensionalism of jerrold j katz which provides a powerful demonstration that the method of close reading developed by new criticism remains the only valid basis for higher-order interpretation for readers with no technical background in linguistics or logic the senses of the text provides a clear and easily-understood introduction to the chomskyan revolution in linguistic theory and to major issues in the philosophy of language including the work of frege wittgenstein quine carnap kripke and davidson
