**Summary :** Free the dialogue in hell between machiavelli and montesquieu pdf download - the dialogue in hell between montesquieu and machiavelli is the source of the world s most infamous literary forgery the protocols of the elders of zion john waggoner s superb translation of and commentary on joly s dialogue the first faithful translation in english seeks not only to update the sordid legacy of the protocols but to redeem joly s original work for serious study in its own right rather than through the lens of antisemitism waggoner s work vindicates a man who was neither an antisemite nor a supporter of the kind of tyrannical politics the protocols subsequently served and presents maurice joly once much maligned and too long ignored as one of the nineteenth century s foremost political thinkers
