Summary : Free hl 103 - the post-crisis eu financial regulatory framework do the pieces fit pdf download - the committee criticises the belated recognition of the importance of the growth agenda it welcomes proposals for an investment plan for europe and for a capital markets union yet the responsibility for promoting growth and prosperity lies not only with the commission but with every member state the uk has the largest financial sector in the eu and the implications of these reforms for this country are therefore immense yet the committee finds that the uk s influence over the eu financial services agenda is diminishing it calls on the government and all uk authorities to take urgent steps to correct this the prosperity of the city of london and the financial services industry it hosts is in the interests not only of the uk but of the eu as a whole
