Explorations Of Language Teaching And Learning With Computational Assistance

Author : Zou Bin / **Category :**Education / **Total Pages** : 345 pages

 Download Explorations Of Language Teaching And Learning With Computational Assistance PDF

Summary : Free explorations of language teaching and learning with computational assistance pdf download - computer-based technologies can enhance language learning and help students embrace the complexities of an additional language due to rapid technological changes innovative teaching approaches and strategies are necessary in order to successfully integrate new technologies within language teaching explorations of language teaching and learning with computational assistance provides cutting-edge research which evaluates improves and applies effective pedagogy in the fields of computer-assisted language learning call and foreign language learning it expands on the principles theories design and implementation of computer-assisted language learning programs

Pusblisher : IGI Global on 2012-07-31 / **ISBN :** 9781466618565
